

## Welcome

We are pleased to announce a new and exciting event, hosted by KTH Royal Institute of Technology.

For the first time the **Swedish Radio and Microwave Days** will be organized, March 6-8, 2012.

This new event features **RVK**, **GigaHertz Symposium**, and **AntennEMB**.

The different symposia include submitted posters, oral presentations, invited speakers, special themes, and best student paper awards in different areas.

## Info, Venue, Hotel and Registration

Radisson Blu Royal Park Hotel (Frösunda) just north of Stockholm.

Please visit [www.gigahertz.nu](http://www.gigahertz.nu) or [www.snrv.se](http://www.snrv.se) for up-to-date information.

### Gold Sponsors

Rohde & Schwarz,  
National Instruments, CST-  
Computer Simulation  
Technology

### Silver Sponsors

Agilent, Amtele, Anritsu,  
Ansys, Bluetest,  
Microcomp Nordic

### Exhibition

Ageto MTT, AWR, NVK,  
Caltech

### Technical co-sponsors

European Microwave Association, IEEE  
Sweden Section, Vetenskapsrådet

ROYAL INSTITUTE  
OF TECHNOLOGY

### RVK March 6

RVK, is the multidisciplinary radio science conference organized by SNRV. RVK will emphasize expanded audience interaction and networking within a wide range of radio science application areas. **RVK will have a theme that spans several of the interest areas: Space Weather.**

### GigaHertz March 6-7

GigaHertz Symposium is a biennial conference in the field of GigaHertz and TeraHertz technology. The conference is a meeting place for researchers in the field from industry, academia, and research institutes.

### AntennEMB March 7-8

AntennEMB, is the radio science conference on Antennas and Computational Electromagnetics organized by SNRV. The conference is a merging of the two conferences Antenn and EMB
